

Defense Technologies International Corp. (DTII)

DEFENSE TECHNOLOGIES INTERNATIONAL CORP. (DTII) Inaugural Presentation Ceremony of The 'Passive Portal' at Coastal Carolina University

Del Mar, California (Nov. 09, 2021) – Defense Technologies International Corp. (OTC: DTII) (the Company) and *Passive Security Scan Inc*. (the Subsidiary); innovative providers of security technology and systems with broad and diverse applications, **proudly introduces the first two videos**

of the inauguration at CCU.

The Company's inaugural Public Installation of its Zero-Radiation Passive Portal Walk-Through Weapons Detector at Coastal Carolina University SC on July 21st, 2021 was a big success. Please see the first Public Relations Videos created under the guidance of Jonathan Silver of Cumulus Media.

A video showing the effectiveness of the Passive Portal in detecting weapons to follow.

Our Public Relations Campaign:

Under the guidance of Jonathan Silver of Cumulus Media, we will increase the outreach that, during the first year, reached 750K people with 1 million ads. The above videos with the addition of a third video to be released in the very near future will become a major part of our new marketing campaign.

"I am excited to announce the start of a new public relations and marketing program with these two introduction videos and more to follow introducing our Passive Portal, the only Passive Non-Radiation Walk-Through Weapons Detector as well as our New EBT-Station" (Elevated Body Temperature) said Merrill Moses the Companies president.

About DTII and its subsidiary 'Passive Security Scan, Inc' (PSSI).

PSSI is a private Utah Corporation and Subsidiary of Defense Technologies International Corp. (DTII). Passive Security Scan Inc. was formed to bring our **Passive Scanning Technology**[™] and our Passive Portal[™] weapons and the EBT elevated temperature detection systems to the market, to improve public safety with a system specifically designed for public and private schools, sports arenas, and other public venues. The Passive Scanning Technology[™] was developed in 2005 and has been continually improved upon with the newest technological advances. The 'Zero-Emission' Passive Portal[™] gateway is our newest model in production and ready for the market.

Forward-Looking Statements This news release contains certain statements that may be deemed "forward- looking" statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are no guarantees of future performance and actual results may differ materially from those in forward looking statements. Forward looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by law, the Company undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
