at the Test Center of
the Department of Homeland Securities in Atlantic City.

Eric Forrest, President of Passive Security Scan inc., a subsidiary of Defense Technologies International Corp. is traveling to the Test Center in Atlantic City to present and introduce our Passive Portal for testing at

The Science and Technology Department of

**Homeland
Security**

Science and Technology

"I am excited to be participating in our Passive Portal™ being tested at the Department of Homeland Security's Test Center in Atlantic City. This marks a significant milestone in demonstrating the effectiveness and safety of our Zero-Radiation technology. We look forward to showcasing how our innovative Passive Portal™ can enhance security measures without the risks associated with traditional scanning methods." Eric Forrest, President Passive Security Scan Inc.

"I am delighted that the testing procedure by the US Government of our unique scanning technology with our ZERO-RADIATION PASSIVE PORTAL is moving forward. I am confident that under the expert supervision of Eric Forrest our Passive Portal will perform to our expectations".
says Merrill Moses, President of Defense Technologies International Corp.

- **The Passive Portal** is manufactured by Passive Security Scan Inc., a subsidiary of Defense Technologies International, Inc., at their manufacturing facility in Dallas Tx.
- **The Passive Portal** is the only known Walk-Through Weapons Detection Scanner with **ZERO RADIATION (US Patent 7408461)**

All other Walk-Through Scanners on the market today use technologies that are active sensing, meaning they use Electromagnetic Radiation (X-Ray; Micro-Wave; Radio-Wave, Radar, etc.)

Passive Portal Technology – PASSIVE SENSING – ZERO-RADIATION – Harmless EBT Station (Elevated Body Temperature) – Contact Tracing – Mask Compliance.
