### **Defense Technologies International cancels application for reverse split**

Las Vegas, Nevada--(Newsfile Corp. – March 14, 2017) – Defense Technologies International Corp. (OTCQB-DTII) (The Company), a developer of security technologies, cancels its application for a reverse split.

The Company previously filed a notification with FINRA for a proposed reverse stock split of the Company's issued and outstanding common stock. Due to certain circumstances related to the filing and the inability to secure final approval of the action, the company has decided not to pursue effectiveness of the stock split.

#### **The Company's Business - The Offender Alert Passive Scan™**

The Company's 'Offender Alert Passive Scan™' is a "next generation" walk-through detector scanning unit. This patented and trademarked passive scanning system allows for detecting and identifying concealed threats such as guns, knives, etc. Unlike other scanners the public is more familiar with, Passive Security Scan does NOT use X-rays to detect threats.

Serious health concerns have been raised over the repeated exposure to X-rays from other scanning machines currently in use. The **Offender Alert Passive Scan™** scanner technology is based on the 'Earth Magnetic Fields' has no emission whatsoever and is therefore extremely safe and harmless to the person passing through our portal. .
