### Defense Technologies International Corp. PSSI reports success at TASBO Convention.

Las Vegas, Nevada--(Newsfile Corp. – June 26, 2018) – Defense Technologies International Corp. (DTII) is pleased to announce its subsidiary, Passive Security Scan Inc. (PSSI), held a successful exhibit at the TASBO Convention (Texas Association of School Business Officials) in Corpus Christi, Texas on June 18-20.

TASBO is an independent, not-for-profit professional association that is dedicated to being the trusted resource for school finance and operations for schools in Texas and represents the Texas branch of ASBO Intl. (Association of School Business Officials International). This represented the first opportunity to publicly demonstrate the Passive Security Scan technology before over 1000 school board officials and other likeminded parties.

“Our successful exhibit at the TASBO convention proves that the Passive Security Scan technology is in demand by school officials. Many of those that showed interest in the Passive Portal were eager to find out more about how they could get the device into their school(s), and many potential salespeople showed similar interest marketing the portal. In addition to this, the public provided valuable feedback that will be fully utilized for our final production unit” reported PSSI’s Marketing Director, Luke Hillbery.

For more information on the Passive Security Scan Technology and the **Passive Portal**, visit [www.passivesecurityscan.com](http://www.passivesecurityscan.com).

For more information on TASBO, visit [www.tasbo.org](http://www.tasbo.org).

The "**Passive Portal**" technology is based on the 'Earth's Magnetic Fields' with no emissions emitted for detection and is therefore extremely safe for any person passing through the '**Passive Portal**'. The Passive Security Scan system uses highly developed field sensing technology using patented methods to sense and pin point the location of contraband detected.

We are pleased to present the Company's Subsidiary's **Video Production** about the "Passive Security Scan" Project.

#### Forward-Looking Statements

This news release contains certain statements that may be deemed "forward-looking" statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects",

"potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. Forward looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by law, the Company undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
