Defense Technologies International Corp.

Concludes Successful Beta Test.

Del Mar, CA (Newsfile Corp. – Oct. 02, 2018) – Defense Technologies International Corp. (DTII) is pleased to announce a successful Beta Test.

The Company completed a successful two-day Beta Test at a Highschool near Austin, TX. The Company's '**Passive Portal**' performed as designed and expected at the School and the Test provided important insight into the 'Passive Portal' technology, its multiple potential uses in the educational environment as well as other public venues.

The School's faculty was most impressed, toured our team through many schools in their district and indicated the issuance of a **Purchase Order** with minor request of adjustments to the 'Passive Portal' to properly suit their requirement.

The Test further provided insight for minor *improvements* to adapt the 'Passive Portal' to all potential environmental situations.

The Company is presently completing these improvements followed by full scale production.

For more information on the Passive Security Scan Technology and the **Passive Portal**, visit www.passivesecurityscan.com.

The "**Passive Portal**" technology is based on the 'Earth's Magnetic Fields' with no emissions emitted for detection and is therefore extremely safe for any person passing through the '**Passive Portal**'. The Passive Security Scan system uses highly developed field sensing technology using patented methods to sense and pinpoint the location of contraband detected.

We are pleased to present the Company's Subsidiary's **Video Production** about the "Passive Security Scan" Project. Please view the VIDEO at: [YouTube](#)

Forward-Looking Statements

This news release contains certain statements that may be deemed "forward-looking" statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. Forward looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by law, the Company undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
