FORM 8-K

When used in this Current Report on Form 8-K, the terms “company”, “Defense Technologies,” “DTII”, “we,” “us,” “our” and similar terminology, reference Defense Technologies International Corp.

Item 8.01 Other Events.

On January 7, 2020, the company issued a press release to announce finalizing the shipment of the first Passive Portal walk-through weapons detector to South-East Asia. Management is optimistic that a successful installation and demonstration of the unit will possibly lead to a distributorship agreement.

Annexed hereto as Exhibit 99.1 is a copy of the press release dated January 7, 2020 announcing the shipment.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit No.	Description
99.1	Press Release dated January 7, 2020

Cautionary Note About Forward-looking Statements

Statements contained in this current report which are not historical facts, may be considered "forward-looking statements," which term is defined by the Private Securities Litigation Reform Act of 1995. Any “safe harbor under this Act does not apply to a “penny stock” issuer, which definition would include the company. Forward-looking statements are based on current expectations and the current economic environment. We caution readers that such forward-looking statements are not guarantees of future performance. Unknown risks and uncertainties as well as other uncontrollable or unknown factors could cause actual results to materially differ from the results, performance or expectations expressed or implied by such forward-looking statements.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Defense Technologies International Corp.

Date: January 8, 2020

By: S/ MERRILL W. MOSES
Merrill W. Moses
President, CEO and
Interim Chief Financial Officer

Defense Technologies International Corp.

Initial Shipment to South-East Asia.

Del Mar, California (Jan. 07, 2020) – Defense Technologies International Corp. (OTC: DTII) (the Company) and Passive Security Scan Inc. (the Subsidiary); innovative providers of security technology and systems with broad and diverse applications, is pleased to announce a first shipment to South-East Asia.

The Company is finalizing the shipment of the *first Passive Portal walk-through weapons detector to South-East Asia.*

Upon successful installation and demonstration, the recipient will enter into a Distributorship Agreement with Passive Security Scan Inc. (PSSI), the subsidiary of Defense Technologies International Corp. We are confident that based on multiple In-House and Field testing that the unit will perform as required within all given technical specifications.

We expect execution of the Distributorship Agreement within ten days of receipt of the unit by recipient which will require the distributor to purchase a minimum of 25 Passive Portals at a total value of \$100,000.00 as negotiated and agreed upon between PSSI and the distributor.

While the company pursues the international potential, its primary goal and attention is to the production for the country-wide school system and other public venues.

The Company continues its negotiations for its Phase Two Production.

“We are pleased and excited to see our Company’s first shipment to South-East Asia,” stated Merrill W. Moses, President and CEO, Defense Technologies International... *“We hope this will add heightened awareness to this issue which is an international problem... That having a security protection feature like this in an “educational settings” for our children is a doable fix and of Paramount Importance to us as Parents, Uncles, Aunts and Grandparents everywhere. And that now for the first time, we’ll have a real “World” template that we may leverage as an example in our expanding and ongoing international efforts to bring safety and security to our most precious assets, our children.”*

The Passive Portal uses the 'Earth's Magnetic Fields' with no emissions for detection of dangerous weapons in the educational environment and is extremely safe for any person passing through. Other competing devices use technology with emissions that many parents, teachers and administrators are wary of. The 'Passive Portal' is the state-of-the-art for this security purpose and is significantly less expensive, allowing for more life-saving units to be deployed.

We are pleased to present the Company's Subsidiary's *Video Production* of the “Passive Portal” the

Company's walk-through, passive weapons and metal detector scanner.

Forward-Looking Statements This news release contains certain statements that may be deemed "forward-looking" statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are no guarantees of future performance and actual results may differ materially from those in forward looking statements. Forward looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by law, the Company undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
