DEFENSE TECHNOLOGIES INTERNATIONAL CORP. (DTII)

appoints a

## National Marketing Director

Del Mar, California (Nov. 24, 2021) – Defense Technologies International Corp. (OTC: DTII) (the Company) and **Passive Security Scan Inc.** (the Subsidiary); innovative providers of security technology and systems with broad and diverse applications, **are pleased to announce the appointment of a new National Marketing Director.**

The Company appoints:

**National Marketing Director, Jonathan Silver**, a graduate of East Carolina University. Mr. Silver served with notable US Senators and US Congressmen. He is a Digital Media expert with tremendous business experience. His experience and dedication to our Company in 2021 led to the first major installation of the Passive Portal at a South Carolina School (Coastal Carolina University) to be followed with the installation at the Police Department Detention Center (City of Myrtle Beach). He managed the process online and in-person, with the Chanticleer Athletic Foundation of Coastal Carolina University & participating in the passage of a board resolution for the City of Myrtle Beach Police Department. He also managed the national digital campaign, branding the Passive Portal as a security solution for all Public Safety Departments, Schools, Places of Worship, Transportation, Airport Security, and Public Buildings.

*"I am delighted to welcome Jonathan Silver as the head of our National Marketing Team to the successful start of our new public relations and marketing program. Jonathan brings a strong background in public relations and marketing and will become a most valuable leader of our marketing team" ... said Merrill W. Moses the Company's president.*

### About DTII and its subsidiary 'Passive Security Scan, Inc' (PSSI).

PSSI is a private Utah Corporation and Subsidiary of Defense Technologies International Corp. (DTII). Passive Security Scan Inc. was formed to bring our **Passive Scanning Technology™** and our **Passive Portal™ weapons and the EBT elevated temperature detection systems** to the market, to improve public safety with a system specifically designed for public and private schools, sports arenas, and other public venues. The **Passive Scanning Technology™** was developed in 2005 and has been continually improved upon with the newest technological advances.

**The Passive Portal™** Zero-Radiation gateway, our newest model in production and ready for the market. **The EBT Station** recognizes elevated body temperatures, with an option for mask warning as well as Contact tracing.

Forward-Looking Statements This news release contains certain statements that may be deemed "forward- looking" statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are no guarantees of future performance and actual results may differ materially from those in forward looking statements. Forward looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by law, the Company undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
