

DEFENSE TECHNOLOGIES INTERNATIONAL CORP. (DTII):
PASSIVE SECURITY SCAN
at the
Georgia School Board Association (GSBA)
ANNUAL CONFERENCE

Del Mar, California (November 29, 2023) – Defense Technologies International Corp. (OTC: DTII) (the Company) and **Passive Security Scan Inc.** (the Subsidiary); innovative providers of security technology and systems with broad and diverse applications, are pleased to announce its participation at Georgia School Board Association (GSBA) Annual Conference.

The Company is pleased to announce its Sponsorship of and Participation at the Georgia School Board Association Annual Conference 11/29/23 – 11/30/23 at the Renaissance Atlanta Waverly Hotel & Convention Center, Garden Court – Atlanta, GA.

The participation was made possible through the tireless work by Eric Forrest, President of PSSI. We are grateful for his unwavering drive for recognition and success of our Mission to bring more safety to Schools and Public Venues throughout the US and the World.

Michel Mase, our Public Relations Director is representing PSSI at the conference. Michele just guided the successful installation of our Passive Portal, at Lanett City Schools in Lanett, Alabama. We are pleased to have our presence at the conference under her capable supervision. PSSI provides a display and information station at Booth 19 in the Conference Hall.

"I am most pleased with our participation at the GSBA Conference displaying and promoting our Zero-Radiation Weapons Detection System at the Conference and the entire School Systems throughout the State of Georgia. My gratitude to Eric for organizing and arranging our participation on the Conference" says Merrill W. Moses, President of Defense Technologies International Corp.

About DTII and its subsidiary 'Passive Security Scan, Inc' (PSSI).

PSSI is a private Utah Corporation and Subsidiary of Defense Technologies International Corp. (DTII). Passive Security Scan Inc. was formed to bring our **Passive Scanning Technology™** and our **Passive Portal™ weapons and the EBT elevated temperature detection systems** to the market, to improve public safety with a system specifically designed for public and private schools, sports arenas, and other public venues. The **Passive Scanning Technology™** was developed in 2005 and has been continually improved upon with the newest technological advances.

Forward-Looking Statements This news release contains certain statements that may be deemed "forward-looking" statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are no guarantees of future performance and actual results may differ materially from those in forward looking statements. Forward-looking statements are based on the beliefs, estimates and opinions of the Company's management.
